Adams The Complete Property Solutions - Investment Proposal

Executive Summary

Adams The Complete Property Solutions, a K-RERA certified real estate development company, is seeking **₹8 crores** in funding for a strategic property acquisition and development project in Kerala, India. Combined with Adams' sweat equity contribution of **₹1 crore**, the total project value is **₹9 crores**.

The investment focuses on acquiring a **12.40-acre property** in Chembra, near Thiruvegappura village, featuring an operational brick manufacturing facility with premium clay reserves and significant expansion potential through agri-tourism and aquaculture ventures.

Key Investment Highlights

- Immediate revenue generation through operational brick facility
- Premium 'Blueberry Clay' reserves ensuring long-term raw material supply
- Diversification opportunities in farm stay and fish farming
- Land value appreciation potential (current market value: ₹3 crores)
- Experienced operational management by K-RERA certified professionals

Company Profile

Adams The Complete Property Solutions
Founded by: Shajahan KP, Managing Director
K-RERA Certification: K-RERA/AG/0059/2025

Company Mission: To guide individuals through every land-related challenge in Kerala and support them in building their dream projects.

Core Expertise

- Renowned architects and design professionals
- Seasoned legal advocates
- Retired Revenue Department officials
- Professional surveyors and documentation experts
- Proven track record in identifying lucrative properties
- Expertise in developing income-producing projects

Key Differentiators

- **K-RERA Approved:** Certified by Kerala Real Estate Regulatory Authority, ensuring authenticity and compliance

- **360° Documentation Support:** End-to-end support for land-related documentation across Revenue Department, local government bodies, Land Tribunal, and Land Registration Department
- **Seasoned Team:** Active lawyers and retired Revenue Department officers ensuring legal and regulatory compliance
- **Multi-location Presence:** 4+ branches across Kerala (Calicut, Tirur, Ponnani, Valanchery)

Project Overview

Property Details

- **Location:** Chembra, near Thiruvegappura Village, Pattambi Taluk, Palakkad District, Kerala, India
- **Total Area:** 12.40 acres
- **Land Composition:**
    - 6.5 acres: Dry land
    - 2 acres: Water bodies (3 ponds)
    - 3.9 acres: Wetland containing premium clay deposits

Current Infrastructure

- **Operational Brick Manufacturing Facility**
- **Clay Reserves:** Premium quality 'Blueberry Clay' ideal for high-grade brick production
- **Water Supply:** Adequate water availability from 3 ponds totaling 2 acres
- **Production Capacity:** 30 lakh bricks per season

Financial Structure

Investment Breakdown

Component	**Amount (₹ Crores)**	**Percentage**
External Funding Required	8.00	88.89%
Adams' Sweat Equity	1.00	11.11%
Total Project Cost	**9.00**	**100%**

Current Investment Status

- **Committed Investment:** ₹3 crores (37.5% of required funding)
- **Remaining Funding Required:** ₹5 crores (62.5% of required funding)

Revenue Projections

Primary Revenue Stream: Brick Manufacturing

Production Specifications

- **Annual Production:** 30 lakh bricks per season
- **Production Season:** 4 months (approximately 175 days) starting September
- **Sales Cycle:** Current year production sold in the following year
- **Project Acquisition:** September 2025
- **Return Commencement:** October 2026 onwards

Investor Returns Structure

- **Years 1-5:**
    - Rate per brick: ₹1.50
    - Annual returns: ₹45 lakhs (30 lakh bricks × ₹1.50)
- **Years 6-10:**
    - Rate per brick: ₹1.75
    - Annual returns: ₹52.5 lakhs (30 lakh bricks × ₹1.75)
- **Years 11+:**
    - Rate per brick: ₹2.00
    - Annual returns: ₹60 lakhs (30 lakh bricks × ₹2.00)

Comprehensive ROI Analysis

Investment Overview

- **Total External Investment:** ₹8 crores
- **Current Property Value:** ₹3 crores
- **Net Investment Risk:** ₹5 crores (after property value security)

Brick Returns Timeline

Year Range	Rate/Brick (₹)	Annual Returns (₹ Crores)	Cumulative Returns (₹ Crores)
2026-2031 (1-5)	1.50	0.45	2.25
2031-2036 (6-10)	1.75	0.525	4.875
2036-2041 (11-	2.00	0.60	7.875

Year Range	Rate/Brick (₹)	Annual Returns (₹ Crores)	Cumulative Returns (₹ Crores)
15)			
2041+ (16+)	2.00+	0.60+	8.00+

ROI Scenarios

Scenario 1 - Brick Returns Only:

- Breakeven Period: 16 years
- 10-Year Returns: ₹4.875 crores (61% of investment)
- 15-Year Returns: ₹7.875 crores (98% of investment)

Scenario 2 - Brick Returns + Property Value (with Land Appreciation):

Land Appreciation Analysis:

- Conservative Annual Appreciation Rate: 6% (based on Kerala market trends)
- Current Property Value: ₹3.0 crores
- 10-Year Appreciated Value: ₹5.37 crores (₹3.0 × 1.06^10)
- 15-Year Appreciated Value: ₹7.19 crores (₹3.0 × 1.06^15)

Combined Returns with Land Appreciation:

- 10-Year Total Value: ₹10.245 crores (₹4.875 brick returns + ₹5.37 land value)
- 15-Year Total Value: ₹15.065 crores (₹7.875 brick returns + ₹7.19 land value)

Enhanced ROI Analysis:

- 10-Year ROI: 128% (₹10.245 crores return on ₹8 crores investment)
- 15-Year ROI: 188% (₹15.065 crores return on ₹8 crores investment)
- Effective Breakeven: ~8 years (considering land appreciation)
- Risk Mitigation: 37.5% of investment secured by appreciating land asset

Note: Pricing structure based on comprehensive market analysis including demand assessment, production capacity evaluation, and operational cost analysis. Returns are subject to favorable weather conditions.

Investment Structure

Investor Rights and Benefits

- **Land Ownership:** Proportionate stake in the 12.40-acre property
- **Profit Sharing:** Direct participation in brick manufacturing profits

- **Expansion Participation:** Stake and profit share in all additional projects including farm stay and fish farming

Legal Framework

The investment structure provides investors with:

- **Asset Security:** Direct stake in land ownership
- **Income Stream:** Fixed returns from brick manufacturing
- **Growth Participation:** Profit sharing in expansion projects
- **Operational Independence:** All projects managed by Adams

Expansion Opportunities

1. Farm Stay Development

- **Allocated Area:** 4 acres dedicated for farm stay and exotic garden setup
- **Additional Infrastructure:** New recreational pond construction
- **Concept:** Premium agri-tourism facility featuring exotic garden setup
- **Investment:** Solely funded by investors
- **Operations:** Managed by Adams
- **Revenue Sharing:** Profits shared with investors based on stake
- **Investor Benefit:** Annual complimentary stay for rest and recuperation

2. Aquaculture Development

- **Infrastructure:** Utilizing existing 3 ponds (2-acre water body)
- **Concept:** Commercial fish farming operation
- **Investment:** Joint funding by Adams and investors
- **Operations:** Managed by Adams
- **Revenue Sharing:** Profits shared based on investment proportion
- **Synergy:** Leverages existing water infrastructure

Competitive Advantages

1. Land Value Appreciation

- **Current Market Value:** ₹3 crores (37.5% of total investment)
- **Investment Protection:** Significant downside protection through asset backing
- **Net Investment Risk:** ₹5 crores (after property value security)

- **Appreciation Potential:** Land value growth provides additional returns beyond projections

2. Raw Material Security

- **Premium Clay Reserves:** 'Blueberry Clay' - finest quality available in market
- **Sustainable Supply:** Adequate reserves for long-term operations
- **Quality Assurance:** Premium raw material ensures high-grade brick production
- **Land Restoration:** Extracted clay areas will be filled to restore land usability for future development

3. Operational Excellence

- **Turnkey Solution:** All operations managed by Adams
- **Proven Track Record:** Currently operational facility demonstrates viability
- **Hands-off Investment:** Investors receive returns without operational involvement

4. Professional Management Excellence

- **K-RERA Certified:** Regulatory compliance and authenticity guaranteed
- **Comprehensive Documentation:** Complete legal and regulatory support
- **Multi-disciplinary Team:** Architects, lawyers, surveyors, and Revenue Department experts
- **Proven Track Record:** Demonstrated expertise in lucrative property development
- **Multi-location Operations:** 4 branches ensuring regional expertise and support
- **Marketing Support:** Associated branding and marketing team to support business growth

Risk Mitigation

Weather Risk

- **Seasonal Dependency:** Brick production is weather-dependent, requiring favorable conditions for optimal returns
- **Mitigation:** Diversified revenue streams through multiple projects reduce weather impact
- **Historical Performance:** Existing operational facility demonstrates weather resilience

Market Risk

- **Mitigation:** Premium product quality ensures market demand
- **Diversification:** Multiple revenue streams reduce dependency on single source

Operational Risk

- **Mitigation:** Experienced management by Adams
- **Proven System:** Currently operational facility demonstrates management capability

Project Timeline

Phase 1: Property Acquisition (September 2025)

- Complete property acquisition process
- Transfer of operational brick manufacturing facility
- Initial setup and optimization

Phase 2: Operational Launch (September 2025 - September 2026)

- Commence brick production for 2025-26 season
- 4-month production cycle (175 days)
- Production preparation for first investor return cycle

Phase 3: Investor Returns Begin (October 2026)

- First investor returns commence
- ₹45 lakhs annual returns for first 5 years
- Ongoing brick production and sales

Phase 4: Expansion Projects (Timeline TBD)

- Farm stay development on 4-acre allocated area
- Fish farming operations in existing 3 ponds
- Additional revenue streams activation

Strategic Positioning

Market Opportunity

- **Construction Boom:** Kerala's ongoing infrastructure development
- **Premium Product:** 'Blueberry Clay' bricks command premium pricing
- **Sustainable Business:** Renewable clay reserves ensure long-term viability

Competitive Edge

- **Quality Leadership:** Premium clay ensures superior product quality
- **Integrated Approach:** Property development with multiple revenue streams
- **Professional Management:** Experienced team handling all operations

Investment Terms

Return Schedule

- **September 2025:** Property acquisition and operational setup
- **October 2026:** First investor returns commence
- **2026-2031:** ₹45 lakhs annual returns
- **2031-2036:** ₹52.5 lakhs annual returns
- **2036+:** ₹60 lakhs annual returns (escalating)

Investment Benefits

- **Land Ownership:** Proportionate stake in 12.40-acre property
- **Diversified Returns:** Multiple revenue streams from brick manufacturing, farm stay, and fish farming
- **Asset Appreciation:** Land value growth over time
- **Expansion Participation:** Profit sharing in all additional projects
- **Complimentary Services:** Annual stay facility for investors
- **Professional Management:** Complete operational management by Adams

Conclusion

This investment opportunity presents a compelling combination of immediate revenue generation, asset appreciation, and expansion potential. The project's foundation on an operational facility with premium raw materials, combined with professional management and diversification opportunities, positions it as a stable and growth-oriented investment.

The structured return mechanism provides a clear path to profitability with multiple security layers. While brick returns alone achieve breakeven in 16 years, the combination of asset appreciation and diversified income streams significantly enhances the investment proposition.

Key ROI Highlights

- **10-Year Position:** ₹4.875 crores from bricks + ₹5.37 crores appreciated land value = ₹10.245 crores (128% ROI)
- **15-Year Position:** ₹7.875 crores from bricks + ₹7.19 crores appreciated land value = ₹15.065 crores (188% ROI)
- **Effective Breakeven:** ~8 years (considering 6% annual land appreciation)
- **16-Year Breakeven:** Brick returns alone fully recover investment
- **Asset Security:** 37.5% investment protection through appreciating land asset (6% annual growth)

- **Growth Potential:** Additional returns from farm stay and fish farming projects

Total Funding Required: ₹5 crores (remaining after ₹3 crores committed)
Projected 15-Year Brick Returns: ₹7.875 crores
Projected 15-Year Land Appreciation: ₹7.19 crores (from ₹3 crores to ₹7.19 crores at 6% annual growth)
Total 15-Year Value: ₹15.065 crores
Asset Security: ₹3 crores current land value with 6% annual appreciation provides substantial downside protection
